LYSTER'S ROYAL ITALIAN AND ENGLISH OPERA COMPANY,

PRINCE OF WALES OPERA HOUSE.

SUBSCRIPTION SEASON FOR 1865
OF
TWENTY-FOUR NIGHTS.

Under the patronage of his Excellency the Governor, and Lady Young.

Commencing
MONDAY, May 1st, 1865.

Mr. W. S. LYSTER has the honour to announce to his subscribers and the gentry of Sydney, that his arrangements for the coming season will far exceed any of his previous efforts for the production of Grand Opera in this city.

Having effected engagements with nearly all the first instrumentalists in Australia, organized a powerful and most effective chorus, and secured the services of the first scenic artistes in the country, he feels certain that the operatic representations will be as perfect as it is possible to give them in this colony, and cannot be surpassed out of the large capitals of Europe. The immense success which the opera has met with during the past year in Victoria and New Zealand has encouraged Mr. Lyster to incur this additional expense, feeling sure that in Sydney the excellence of the entertainment will be appreciated.

The Sydney Insurance Company issues policies for protection against fire, for sums ranging from £100 to £10,000. The subscribed capital is £250,000, with unlimited liability of a large and wealthy colonial proprietary. The rates of insurance range from 3s. per cent. to 6s. 6d. per cent., for brick or stone dwellings, and from 4s. 6d. to 12s. 6d. per cent. for brick or stone shops, stores, and places of business. Wooden buildings are charged special rates. Losses promptly settled. £40,000 has been paid by this Company for fire losses within the past eight years. Small accidents, from fires in dwellings or shops, are recognised as claims, and equitably settled. This being a colonial institution, the whole of the profits are retained in the colony, instead of being transmitted to England.
Further information can be obtained, and applications will be filled up without any expense to the applicant, at the Offices, corner of Pitt and Hunter streets, Sydney.

BANKERS:
The City Bank.
The object of this Company is to establish within the Western District of New South Wales a Joint Stock Bank, which will afford to its inhabitants the advantages of an institution supported by a proprietary having a local interest. They will thus be enabled to conduct their monetary transactions within their own district, and secure to themselves a portion of the profits arising therefrom.
That the profits of colonial banking are very considerable is obvious to any one who has studied the history of the various companies during the past few years. Apart from the consideration of numerous additions to capital caused by the expansion of trade after the gold discovery, a glance at the following table will show the remunerative nature of these investments:—

The Bank of N. S. Wales, with a capital of	£1,000,000,
pays 17½ per cent. dividend, and has created a reserve fund of	£332,000.
The Commercial Bank, with a capital of	£400,000, pays
17 per cent. dividend, and has created a reserve fund of	£104,000.
The Australian Joint Stock Bank, with a capital of	£500,000, pays 12½
per cent. dividend, and has created a reserve fund of	£55,000.

The course of banking in England shows that there is no need for the metropolis to monopolise the entire control of monetary affairs, many of the Joint Stock Banks in the manufacturing and country districts being among the most successful of these institutions. It requires no argument to prove that a local board must be in a better position to judge of the value of business offered to it than a directory at a distance, which, from various causes unconnected with the locality, may, without warning, cripple the trade of a district, and peril the standing of men in every way worthy of credit and support.
From the acknowledged wealth and vast resources of the Western District of New South Wales, it is believed that the company now projected will at once meet with sufficient local support to render its operations amply remunerative. Besides this, in addition to its immediate prospects, it may fairly be anticipated that the extension of the railway to Bathurst, and thence possibly to Fort Bourke, will give an impetus to pastoral, agricultural, and mining pursuits of great promise as regards the future extension of the bank, and will ensure to it a success second to none.
For the convenience of small investors the shares have been fixed at the moderate sum of £5 each.
The nominal capital of the bank is fixed at a quarter of a million sterling, in 50,000 shares; but it is proposed to issue at present only 20,000, the remainder to be allotted at such time as may hereafter be determined. Payment of calls to be made in the following instalments:—
One Pound per Share on allotment,
Two Pounds on the 14th June next,
and the balance as soon as may be determined by the Board, and after three months' notice.
It will be the object of the bank to afford facilities to all the industrial interests of the district, and to render every possible accommodation to the squatter, farmer, storekeeper, and miner.
The chief office of the bank will be in Bathurst, and it is intended subsequently to extend its operations as soon as possible to Sydney; also to Orange, Carcoar, Mudgee, Wellington, and Dubbo, as well as to other centres of population within the district.
The Board of management will consist of five directors, to be chosen by the shareholders from among themselves.
It is proposed to lay a balance-sheet of the affairs of the bank before the shareholders half-yearly, the first meeting to be held in January, 1866.
As soon as the necessary preliminaries are arranged the business of the bank will be commenced at Bathurst, and, as early as practicable, application will be made to the Legislature for an Act of Incorporation limiting the liability of the shareholders to twice the amount of their shares.
In order to prevent a monopoly of shares, and to secure a wide spread interest throughout the district, it is deemed expedient to limit the allotment to any one individual, to 400 shares.
Applications for shares on the annexed form are to be made to the provisional committee at the temporary offices of the bank, next the Post Office, Bathurst, or to JOSIAH MULLENS, Esq., broker, Victoria Chambers, Pitt-street, Sydney, on or before 18th April next.
The shares will be allotted PRO-RATA on the number applied for. All applications for ten shares or under being made in full.
FORM OF APPLICATION.
To the provisional committee of The Western Bank of New South Wales, Bathurst.—Gentlemen,—I hereby request that you will allot me shares in the above bank, and I hereby agree to accept the same or any less number which may be allotted to me, and to pay the calls as specified in the prospectus, and to sign the deed of settlement when required to do so.

TURKISH BATH, Bligh-street.—Gentlemen's Bath open daily from 8 a.m. to 7 p.m
Ladies' Bath open daily from 8 a.m. to 7 p.m
Working Men's Bath open daily from 7 p.m. to 7 p.m

"But the bath is of still greater importance to the healthy than to the sick; for to be kept well it better that to be cured, and a harmless, luxurious, invigorating and life-prolonging recreation, is better than all medicine. The bath is to the individual man, comprising his liver, kidneys, and skin, what the sun is to the world and its inhabitants."—Dr. HERMANN WEBER.
"I look more and more every day persuaded by my experience, of the great value of the Turkish Bath. I have been boiled, or rather roasted again into youth."—Sir JOHN TYLE, M.D., introducer of the bath into the Newcastle Infirmary.
"In Cyprus, where there is a mixed Mahomedan and Christian population, the Mahomedans who use the Turkish Bath are almost free from consumption, while the Christians, who do not use it, fall frequent victims to that disease."—Dr. BARTER.
"Gout and rheumatism are hardly known among the bathing population of Turkey."—URQUHART.
"The Turkish Bath is looked upon so much in the light of a panacea, that the lower orders never dream of consulting a physician when taken ill."—Dr. MILLIGEN, physician to the Sultan.

CAUTION against COUNTERFEITS.—None are genuine unless the signature of R. and L. PERRY and CO. is affixed to each wrapper, and blown on the bottle; and each bottle is protected by a patent capsule, bearing the proprietors' name and address in full. The greatest medical discovery of the age.
PERRY'S CORDIAL BALM OF SYRIACUM.
Sold at Messrs. R. and L. PERRY and CO.'S Wholesale Depot, No. 19, Berners-street, Oxford-street, London, and at their Depot, 259, Pitt-street (near the Victoria Theatre), Sydney.
Caution.—The high repute and extensive sale of Messrs. Perry's medicines having induced many unprincipled individuals to foist upon the public illicit and spurious compositions of their own preparation, Messrs. Perry beg to inform persons purchasing their medicines that none are genuine unless the signature of R. and L. Perry and Co. is affixed on the outside of each wrapper of the Cordial Balm of Syriacum and Detersive Essence, and their name and address, and also that of the medicine is blown on the bottle, to imitate which is felony; and in addition, all Messrs. Perry's medicines sold in Australia, India, China, and all other parts of the world, will be protected by a patent capsule annexed to each bottle, bearing their name and address in full.
R. and L. PERRY and CO., Depot, 259, Pitt-street, Sydney, near the Victoria Theatre.
No connection with any other house.

HUILE IODEE de J. PERSONNE, approved by the Academy of Medicine in Paris.—According to a report of the Academy, this Oil is a medicine of high value, possessing many advantages over the cod liver oil. It has a quicker and more sure action in cases of scrofula, syphilis, and different complaints in which the latter has been ordered.
Depot in Paris—Labelonye, Rue Bourbon, Villeneuve, 19. In Sydney—J. and E. ROW, Pitt-street.

CHLORODYNE.—EARL RUSSELL has graciously favoured J. T. DAVENPORT with the following:—Extract of a Despatch from Mr. Webb, H. B. M.'s Consul at Manila, dated September 17th, 1864. "The remedy most efficacious in its effects (in Epidemic Cholera), has been found to be Dr. COLLIS BROWNE'S CHLORODYNE, and with a small quantity given to me by Dr. Burke, I have saved several lives." Earl Russell communicated to the College of Physicians that he had received a Despatch from her Majesty's Consul at Manila, to the effect that Cholera had been raging fearfully, and that the only remedy of any service was Dr. COLLIS BROWNE'S CHLORODYNE.—See LANCET, December 31st, 1864.
Agents—Sydney—Messrs. M. A. WORMS and CO., 21, Wynyard-lane.

CAUTION.—Chlorodyne.—In Chancery.—It was clearly proved before Vice-Chancellor Sir W. P. Wood, by affidavits from eminent hospital physicians of London, that Dr. J. Collis Browne was the discoverer of chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See the TIMES, January 12th, 1864. The public, therefore, are cautioned against using any other than Dr. J. COLLIS BROWNE'S CHLORODYNE, which is extensively used in hospitals at home and abroad, and is affirmed by medical testimonials accompanying each bottle to be the most efficacious medicine ever discovered for fevers, dysentery, diarrhœa, consumption, coughs, colds, asthma, bronchitis, spasms, rheumatisms, &c. No home should be without it. It relieves pains, soothes the system, inducing refreshing and soothing sleep, without producing or leaving any unpleasant effects like opium, and may be taken at any time in a few drop doses.
None genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the wrapper.
*** Beware of counterfeits sold under the same name.
Wholesale agents for Sydney, Messrs. M. A. WORMS and CO., 21, Wynyard-lane.
Sole manufacturers, J. T. DAVENPORT, 33, Great Russell-street, London.

WHEELER AND WILSON'S
Prize Medal New Improved
SEWING MACHINES.
The distinguishing feature in this machine is the making of the
TIGHT LOCK STITCH by the ROTATING HOOK,
an improvement on the shuttle, whereby all heavy and noisy action is avoided, which makes it noted above all other machines for simplicity and general effectiveness; in proof of which, the machine gained a First-class Prize Medal at the London Exhibition of 1862; also, the Paris Gold Medal in 1861; and the numerous testimonials received from persons in all parts of the colonies amply testify to its excellency. Its complete superiority is fully shown in the following
It fells or hems any width, turning its own hem as it stitches.
Gathers any kind of material with any quantity of fullness.
Embroiders in beautiful designs, with cord, braid, or silk.
Sews in cord without basting.
Hems, enclosing a cord at the same time, without basting.
Binds any material without basting.
Marks any width of tucks, and stitches them without basting.
Trims skirts with braid, velvet, or ribbon, without basting.
Quilts any material in any design, with silk or cotton.
Descriptive pamphlet, with testimonials, free by post on application.
INSTRUCTIONS GRATIS TO EVERY PURCHASER.
The public are respectfully invited to call and see the MACHINE IN OPERATION at the Show Rooms, No. 1, Wynyard-street, next to Bank of New South Wales.
VENNARD and STEVENS, sole agents.

GROVER and BAKER'S
SEWING MACHINES.
WHY THEY ARE BEST.
They are more simple, durable, less liable to get out of order, and more easily managed than any other; they sew from ordinary reels, and no rewinding of thread is necessary.
They fasten both ends of the seam by their own operation, and will make beautiful embroidery without any change of arrangement.
These are the only machines that both embroider and sew perfectly.
The celebrated
GROVER AND BAKER STITCH
Is so Strong and Elastic
that it will not break even on the bias, and though cut at every sixth stitch remains firm, and neither runs nor ravels in wear.
These machines were awarded 50 first premiums over all competitors in the year 1863.
ASHDOWN and CO., sole agents for New South Wales.

WILCOX AND GIBBS' FAMILY SEWING MACHINE.—It forms a flat, even, and elastic seam, which is warranted not to rip in wear, if properly sewed, when every third stitch is cut.
A patented device, recently applied, prevents the possibility of the machine being run in the wrong direction, or the balance-wheel wearing a lady's dress.
Two thousand stitches, or two yards of work, can be done in one minute without dropping a stitch.
These machines, so simple and accurate in their construction, supersede the use of the shuttle; and with one thread produce all the practical results of two-thread machines; and more, for these fell without basting, and hem the finest muslin without puckering.
It has been extensively sold in this colony during the last two years, and most satisfactory testimonials can be given as to the efficiency of its working; it is clearly proved that although half the price of other first-class machines it will accomplish double the sewing in a given time.
PRICE £10.
SAMUEL HEBBLEWHITE, George-street, 4 doors north Royal Hotel.

W. H. CHRISTIE, Postmaster-General.

The Lalla Rookh left Apia, Navigator's Islands, on the 15th ultimo. Experienced light variable winds most of the way. Sighted the barque Viscount Canning, of London, on 28th ultimo, in latitude 22-52 south, longitude 156-12 east—supposed to be from New Zealand, steering for Torres Straits. The Hamburg barque Alstei, Captain Hansen, was totally lost at her moorings, in Apia harbour, during a dreadful hurricane that swept over the Navigator's Group on Saturday, the 28th January last. The sea got up so suddenly, and so high, that no volunteers could be got to go off to her assistance, although large sums were offered. She is supposed to have struck the reef between 9 and 10 o'clock at night, but it was so dark, and blowing so hard, that she was neither seen nor heard from the shore; in the morning there was no part of her visible, and, unfortunately, the mate, the captain and all hands, with the exception of one, perished. There were thirteen souls on board.—The ship Vernon, of Sydney, was lying in Apia Harbour, dismasted, when the Lalla Rookh left—having experienced the same hurricane that swept over Samoa on the 28th January; she was then about 700 miles to the N.W. of Apia, and, having got up a wonderful new rig, reached that port on the 14th February. The American barque Julia Cobb, from San Francisco to Adelaide, with lumber, was lost on Palmerston's Island on the 20th November—all hands saved. After remaining some time on the island, the mate, Mr. M'Millan, and three hands left in an open boat to seek assistance at Aitutuki, but could not reach it. They then bore away for the Navigator's, and reached Apia in safety on the 27th January, just one day before the hurricane. It has since been ascertained that the captain and rest of the crew have been taken off Palmerston's by the schooner Annie Laurie, of Tahiti. During the hurricane of the 28th January the Lalla Rookh was on her way to deliver the mission freight at the Harvey Group. On the 27th, in latitude 20-52 south, longitude 159-45 west, she experienced a heavy gale, which continued without intermission for sixteen hours—Bar. 29·00. On the 3rd February, between the islands of Mangia and Rorotonga, met with a hurricane, with fearful sea; wind commencing at S.E., with thick cloudy weather and heavy rain. At 10 p.m. ship hove-to under close-reefed maintopsail, labouring very heavily and shipping a deal of water; wind south-east to south-west. Midnight, blowing with great fury, and constant rain; barometer 29·40, thermometer 80·00. Daylight, the same. Noon, more moderate, and very gradually decreasing. February 9th, called at the islands of Atiu and Miteiro, where we found all the houses and churches, without exception, blown down, also most of the cocoanut trees, bread fruit and banana trees. The natives were in great distress for want of food. The Lalla Rookh brings from Apia the chief officer and fifteen men belonging to the ship Vernon, the chief officer and three men of the barque Julia Cobb, one distressed British seaman, and one native South Sea.

The Emile, from Melbourne, is originally from Calcutta, and brings on a portion of her cargo.

The Marguerite has made a splendid passage of forty-two days from Calcutta, but unfortunately has no papers, or we should have received later English intelligence.

The Heather Bell, from Port Cooper, reports northerly and southerly winds during the passage.

The Grafton (s.), left Grafton on the 12th instant, at 10.45 a.m. Crossed the Clarence Bar on the 13th, at 7 a.m.; arrived in Sydney 14th, at midnight, having experienced a strong breeze from the south ward to Tacking Point; from thence to Seal Rocks moderate breeze from the southward, with a heavy S.E. sea; from thence to Sydney a moderate breeze from the northward. Passed the Yarrow (s.), on Friday, 14th, bound north, off Charlotte Head, at 10.30 a.m.; Thane (s.), 1.15 p.m., off Long Island; and Gratia, brig, at 9 p.m., in Newcastle Bight. The cargo of the Grafton consists of 1300 bags maize, 70 hides, 43 bales wool, 2 coops fowls, 3 boxes eggs, and sundries.

The Samson (s.) left Taree at 6 am. on the 13th, and arrived at Sydney at 9.45 a.m. on the 14th. Experienced strong S.E. winds, accompanied with heavy showers of rain as far as Seal Rocks; from thence moderate variable winds, and dull cloudy weather. The schooner Sarah Barr was ashore on the North Beach, in a very dangerous position. The Samson's cargo consists 511 bags maize, 35 bags potatoes, 16 pigs, 7 coops poultry, 22 cases eggs, 2 kegs tobacco, 1 horse, and sundries.

MR. F. P. MEARES.—At the Railway Station, at 10 o'clock, Hay, Straw, &c.

LARGE NATIVE CAT.—A friend, writing from Emu Swamp, furnishes the following description of a native cat shot by him. He describes it as mouse-coloured and white spotted, and adds: "Length of tail, 19 inches; length from snout to tip of tail, 37½ inches; circumference of neck, 9½ inches; measurement of head, 9½ inches; 12 inches round breast; 10 inches round loins; 4 inches round root of tail; 7 inches round thigh. The other measurements were proportionate.—*Western Examiner.*

MR. IRELAND'S NIGHT IN THE BUSH.—On the recent visit of Mr. Ireland to Wood's Point, his party were obliged to camp out, and the ex-Attorney-General turned in with his boots off near the fire. Next morning, the boots, being wet, would not "come on"—just at this moment Judge Cope arrived, and found Mr. Ireland quietly whiffing his weed, with his trousers rolled up to his bare shins in pure Hibernian fashion, and his coat tails turned up, as if he were standing at the drawing-room fire. After the greetings which might be expected on such an occasion, the savalade got underway. The horses tired and the road bad, the gentlemen had to tramp; and Mr. Ireland, having secured a staff, took off his coat and stepped out barefooted for a journey of four miles over an uneviable road, half this time nearly knee-deep in mud. He did the distance bravely; and on being asked by a horseman who overtook him, "How on earth was he able to stand it?" he exclaimed, very much to the man's satisfaction, that "he came from a country where the children were all born without shoes or stockings." The following night the party would also have been out were it not for the Judge, who announced at the next stage their approach, and when night came on, half a dozen men went out in search, and, having found them, piloted them three or four miles with their bottles and candles."—*Wood's Point Times.*

SATURDAY, APRIL 15, 1865.

THE appearance of the gentlemen from Victoria in this colony during the recess will enable them to compare the condition of the two colonies. We fear that, after Melbourne, the movement of life in Sydney will appear but dull. It must, however, be recollected that from the older country there has been an uninterrupted drain—that we have preserved the strength we possess—that there is no visible decline in any branch of industry which ever flourished, although the advance has not been equal to our expectations. This may be a matter for more regret than surprise. How much of the original strength of Victoria—its skill in the occupation of new territory—was but a transplantation from the elder community! How large a share of the Queensland prosperity is owing to the emigration of well-trained colonists from New South Wales! Even New Zealand, with all its English reputation, first became known to the world by the enterprise of Sydney men. The drain of new settlements and the attraction of land unappropriated—of situations unoccupied—of constantly expanding colonisation, have always affected, at least for a time, the elder State. Such was the history of many of the older settlements in America. When FRANKLIN embarked in business for himself he was told that in Philadelphia there was no room for a second printer. The whole of the Northern States are sprinkled with natives of New England, who everywhere are distinguished by their energy and industry, and, as a rule, take the lead in all institutions for the organisation of society.

Our readers will bear us witness that we have never cherished a jealous or contemptuous feeling towards the later offshoots of Sydney colonisation: on the contrary, their prosperity is always our second wish; and we have no doubt that, as they grow in strength and influence, we at all events shall profit by their well-being.

It is in this spirit we hope the gentlemen from Victoria will be received by our Government. They are the representatives of the sister colony, and they come, we presume, with a view to promote a good understanding, and to remove those differences which have hitherto endangered it. NAPOLEON laid it down as a rule that every diplomatist was bound to take all advantages possible for the State he represented. Whatever moral laws governed private conduct, in his opinion, there was only one law for a State, and that was to acquire as much power and to concede as little as possible: but NAPOLEON was no authority in morals. The close of his grand career was a great reversal to his doctrines offered by the Hand which, in the long run, rightly balances the world.

It will, however, be the duty of each Government to see that neither makes blind bargains, or is led into arrangements which will cause perpetual fretfulness and impatience. The most rational scheme of all would be to initiate some plan for the establishment of general Customs. The union of Sydney and Victoria in such a scheme would draw after it inevitably the sympathy and imitation of the rest of the colonies, and prevent misunderstandings which first are quarrels and then conflicts.

Is it not absurd that communities having the same origin, composed substantially of the same families—consuming, considered at large, the same kind of imports—living upon territories which border upon each other—forming jointly or separately new settlements that will claim the independence of local government, should have hostile tariffs; that they should support Customs establishments and border guards, and so vex and hinder one another? Would it not be a reasonable thing for such a people to say—we are so many hundred thousand people;—we have Customs that embrace articles of universal consumption;—we will take these as the sole subjects of taxation, divide the proceeds according to the census, and collect under one system the entire proceeds of each for the benefit of all? How much expense might so be prevented—how much time saved, and how fine a preparation should we have for that more united action which time and circumstances will impose upon us when, besides the interests of the inferior Government, we have to guard those of the entire Australian world.

Unfortunately, the two Ministries will meet under systems inspired by Legislatures in opposition. Here free trade is established. Doubtless there are various degrees of sincerity in attachment to it, and there is no lack of inconsistency in its avowed supporters. The protectionist of Victoria, in the most moderate development, is probably not so distinguishable from the free trader of New South Wales in his first stage of profession; but the two bodies of legislators have, for the present, given adherence to opposite ideas. If we considered merely our temporary interest—if we did not hate all narrowness in legislation, we should only have to hope that the same spirit which has dominated in the Assembly of Victoria may continue to rule in the Cabinet, and that the gentlemen who visit us will stanchly adhere to a scheme which will strangle the commerce of their country. Meantime, however, the new tariff of Victoria is in force. The resolution of the Assembly has authorised its imposition. By a strange anomaly, in legislation new taxes are imposed without the full authority of law, and they may continue for a long time to come. But it is probable that the effect of the experiment will convince the colony, and ultimately the Assembly, of its mischevious tendency, and that when the tariff shall go into the Upper House, notwithstanding that it is tacked on to the Appropriation Bill, it will be cast out as inconsistent with the spirit of the age; and, if once cast out, assuredly it will appear no more. Every powerful delusion has its moment of triumph, but if unsustained by experience the reaction is decisive. Soon probably we shall find that the two colonies will be in a condition to treat of revenue unembarrassed by theories of protection or free trade by a common recognition of those truths which are hardly now argued by British statesmen, but set down as fixed maxims of government. If such a condition were to arise, and such a union of tariffs to be proposed, of course the Border question would be at an end. The lines of separation between the two colonies would be no longer susceptible to those vexatious embarrassments which are now suffered on either side,—by the merchants of Victoria and the settlers of New South Wales. Commerce would follow its natural bent, and they would win its choicest favours who were entitled by their enterprise, position, and skill.

If, however, such an arrangement be not possible, we hope that no difficulty will be created in the path of future adjustment. An arrangement marked by liberality and good will should be adopted for a time. Three or four years hence a revision of the whole system will become more urgent, and that which may now be received with coldness will force itself upon the attention of all our colonial statesmen. It will some day or other become apparent that there are duties of a local nature which can be best performed by every settled colony for itself and by each section of every colony down to the minutest subdivision capable of yielding an administration. But it is evident, while we care for municipalities as the best school for liberty and independence, there are other interests which must admit of larger co-operation, and these are represented by our several Legislatures imperfectly—they require another organ embracing the whole Australian group which may be well initiated by a Customs Union.

IT a record had been kept of all the deputations to the MINISTER FOR WORKS about the Wollongong Harbour, the compilation would make a little book. Whether they happen at regular intervals, or whether, like comets, they come and go at unexpected times we have not before us tabulated data to enable us to state. But they certainly occur very frequently; the recollection of one has scarcely vanished before our attention is called to another. There is always something going on wrong, or something that is not going on at all that ought to be set in motion, or something that is going on that ought to be stopped. The progress of the works is never quite satisfactory, and the want of progress is not a whit more satisfactory. The residents are very deeply interested in this undertaking, and seem to be kept by it in a constant state of impatient anxiety or irritable despair. They look at the operations till they get too much excited to be able to stand it any longer, and then they relieve their feelings by coming up in a deputation to the Minister, who is always able to survey their distress with composure, and whose patience in administering stereotyped promises is beyond all praise. The soothing influence of the Ministerial treatment, however, does not last long, and the eruptive symptoms of discontent soon break out again, and require the relief of another deputation.

These very frequent deputations must have suggested to many of our readers the great desirableness of having local works carried out under local supervision. The object of these visits is to teach the Minister his duties in respect to the work in question—what ought to be done and what ought not to be done. The Minister will probably be the first to confess that the people on the spot are better acquainted with these matters than he is. He is not necessarily an engineer by profession, nor a stonemason by trade, and his mind is occupied by a thousand other departmental details, as well as the recreation of parliamentary fights. With three trunk railways to look after, all the main roads, some of the minor roads, and the Dunmore Bridge in the bargain, it is not to be wondered at that he occasionally forgets the little job at Wollongong. It is only a little item in his miscellaneous list, though in the eyes of the residents there it is the most important matter in his department.

It is very probable that other public works get on just as unsatisfactorily as the harbour at Wollongong, only they are so distant that the people interested in them cannot readily get at the Minister without too great a waste of their own time.

There is some paint wanted on the bridge at Deniliquin, but the people will endure the eyesore rather than come to town to tell the Minister all about it. Something has gone wrong with the punt at Fort Bourke, but the Minister is quite safe from a deputation. An overland journey of five hundred miles is no joke, even for the pleasure of telling one's grievances. But Wollongong is handy; the journey up and down is quickly and cheaply made, and so we get a sample of the *vira voce* complaints that would be made if the Works Office were equally accessible from every point where the department is operating. *Ex uno disce omnes.*

One thing may be put down as certain, and that is, that where there is so much local dissatisfaction there is sure to be a great waste of the public money. Everything is done extravagantly. The superintendence is excessive, the delays are costly, the neglect of subsequent repairs is extravagant. It was stated lately by Mr MARTIN that under the minor road system, one man was appointed at a hundred a year to superintend the expenditure of ninety pounds, and we have been assured that the statement was no exaggeration. Surely the force of folly could no further go.

It has been said in opposition to the proposal for District Councils that the couatry is not rich enough to bear a local property taxation. Surely it is rich enough to save waste, and would be made still richer by the saving. In some shape or other the country has to raise the money that is lavished at present. It would not be drained any more if the same amount were raised by a different process, and would be benefited if the money so raised were spent to more advantage. There might possibly be a redistribution of the pressure of this taxation, but that would be all in the direction of equity. Local proprietors might have to pay proportionately more towards local works and the general public less, but this is just as it should be, for the outlay comes back to them in the improvement of their property. To say that the owners of land are too poor to be taxed for their local roads and bridges and harbours, and that the rest of the community is to be taxed for them, is simply to fleece one set of men for the sake of another. Mr. SMART is about to raise by stamp taxes about as much as it is proposed to spend on minor roads. Will those that contribute most to these taxes be those that are the most benefited by the minor roads? Under no system is it possible to give to each taxpayer an exact return for his contribution to the State, but effective municipal taxation makes the nearest practical approximation to this theoretical standard of justice.

The special object of the last deputation from Wollongong was to get more money to enlarge the original plan. It is thought desirable to deepen the harbour, to make it a more ambitious port, and to enable it the better to compete with Newcastle. As a response to this application we shall, perhaps, hear that Newcastle wants more money spent there in order to compete more satisfactorily with Wollongong. As tending to develop the coal trade this competition is healthy enough, and, if it were carried out from private or local resources, would be matter for unmixed congratulation. But the Government has nothing to do with the rivalry between different outports, least of all should it back one against the other. It should be free not only from favouritism but even from the danger of favouritism.

Mr. ARNOLD exacts from the rural settlers a guarantee of an adequate dividend before he will spend a penny on a branch line of telegraph. Why cannot the same principle be applied to the improvement of outports? If a local guarantee were taken for money advanced for local improvements, there would be no objection then to giving whatever was asked for. But under such circumstances it would be seldom that the demand would be excessive. People would be cautious how they subjected themselves to severe taxation to repay money uselessly spent. As long as the MINISTER FOR WORKS can be induced to lend without any bond for repayment of interest or principal, so long he will have plenty of applicants, and the public debt will move forward apace. It is idle to talk of economy so long as it is "cut and come again" at the loan fund. Strictly speaking, borrowed money ought to be more jealously expended than that which is drawn from the general revenue, but as a matter of fact it is more easy to get a sum charged to the loan account than to the revenue account. The latter is limited, the former is not, and the immediate pressure of the outlay is less felt in the one case than in the other.

THE BORDER CUSTOMS.—In the paragraph in yesterday's issue in which we mention the names of Mr. M'Culloch, Mr. Michie, and Mr. Verdon, the Commissioners on the subject of the Border Customs, as having arrived on Thursday night by the steamer Alexandra, we omitted the name of Mr. John Guthrie, Inspector-General of Customs.

MR. AND MRS. GEORGE CASE.—This evening the hall of the School of Arts will be opened for the performances of Mr. and Mrs. George Case (Grace Egerton), in an entertainment entitled "A Drawing-room to Let," in which the following characters will be introduced by Mrs. Case:—Lady Teazle, Katty Mooney, Mrs. Kubbards, Private Jones, Deborah Griggs, Noah Wurzell, Mrs. Ferret, the Wizard of the East, Molly Brown, Miss Amelia Tremlet, and John Brettles. This amusing and elegant entertainment is very popular in England, and has also proved attractive in the colonies. Mr. and Mrs. Case have both acquired fame in London—the former as an unrivalled performer on the concertina and arranger of music for the pianoforte, and the latter as a very versatile delineator of character. It is not a mere representation of character, however, but the entertainment is interspersed with musical and other illustrations, likely to prove very acceptable to an audience when presented by *artistes* of the acknowledged celebrity of Mr. and Mrs. Case. Mr. Case is also a violinist of superior attainments, and he will perform a series of comic variations on the violin with his inimitable imitation of the bagpipes on the concertina. The prices of admission have been judiciously placed within the means of those who are termed "the million," and, for such an excellent and amusing entertainment, they are very moderate.

SUNDAY SCHOOL EXCURSION.—The scholars attending the Bathurst and Goulburn street Baptist Sunday Schools were treated to their yearly excursion to Middle Harbour yesterday. About two hundred and fifty children joined in the festival, and they were accompanied by a large number of their friends and relatives. The holiday was spent at Clontarf, a pleasant place at the head of the harbour, and one which is in every way suited for the accommodation of excursionists. The young folks enjoyed themselves very heartily in the usual athletic games or in less vigorous pastimes. The elder part of the company occupied their leisure with congenial recreations; some climbed up the steep and rugged side of the mountain range which skirts the northern boundary of the grounds, others sauntered along the beach, or sat and chatted under the shade of the trees, while there were two or three groups of persons who beguiled the time with sacred songs. The weather was delightful, and everybody appeared to be cheerful and happy. It need hardly be mentioned that the children were plentifully supplied with refreshments, the kindness and forethought of their teachers having left nothing to be desired in this respect. The schools, which were conveyed by the steamer Broadalbane, were re-landed at the Circular Quay at a quarter to seven p.m.

MACQUARIE-STREET PRESBYTERIAN SUNDAY SCHOOL.—The annual celebration of the Sabbath school in connexion with the Free Church, Macquarie-street, took place, yesterday, at Cremorne. About 300 children and their teachers, with a large number of visitors, enjoyed themselves at the romantic and picturesque grounds of Mr. J. Milson. The children enjoyed themselves in various exercises suited to their tastes—football, rounders, cricket, and quoits—"the young contending while the old surveyed," and enjoyed the social intercourse of youth and age under the umbrageous trees. The keen appetites of the youngsters were amply satisfied with a profusion of cakes, pies, buns, fruit, and tea. The children were suitably addressed by Dr. Steel and Mr. Hossack, and sang, with great taste and sweetness, several melodies. The whole party were conveyed there and back in three trips by the Herald steamer, the trips being performed with comfort and safety to the passengers.

SUNDAY SCHOOL EXCURSION.—The children belonging to the Chalmers Church Sabbath schools were treated to an excursion to Abercrombie Bay, Parramatta River, yesterday. The steamer Brothers left the wharf at the foot of King-street at nine o'clock with the juveniles, to the number of about one hundred, accompanied by their teachers, and returned at ten for the friends and visitors, of whom there were probably another hundred. Both children and visitors made the best of beautiful weather, and enjoyed themselves throughout the day most heartily. Toward evening the excursionists re-embarked, and the last were landed in Sydney between seven and eight o'clock.

EXCURSION TO MIDDLE HARBOUR.—A considerable number of our citizens availed themselves of the opportunity of having an excursion down the harbour, and to the rural locality of Balmoral Gardens, at Middle Harbour, by the Pelican steamer, yesterday. The steamer made two trips down—one at 10 and one at 11.30. The bright sunny weather and cool sea breeze were duly appreciated by the excursionists, who spent a most pleasant day, and returned to Sydney at an early hour in the evening.

SERIOUS OCCURRENCE.—A man, whose name was not ascertained, was seized with a fit whilst in Hyde Park, yesterday evening. The unfortunate sufferer was in a state of unconsciousness. Some constables having procured a stretcher, he was removed to the Infirmary at about eight o'clock.

NEWCASTLE.—Our correspondent writes that, "on Thursday morning we were visited by a heavy squall of wind and rain, which lasted about two hours. The rain came down very heavily, and many parts of the town were flooded for a time;—we had one very loud clap of thunder, but we did not hear of any damage being done in the town. At Hexham, however, six telegraph posts were shattered to pieces by the lightning. This morning the weather is clear and fine. A rather curious incident happened on the Great Northern line this morning. There was an unusually large number of passengers for Sydney, and, as the principal portion wanted to travel in first-class carriages, it was found necessary to add an extra first-class carriage to the train,—a circumstance not before known since the formation of the line."

A NOVEL EXPORT.—Last Saturday's *Deniliquin Chronicle* remarks that "some few months since when we noticed the settlement among us of a few Chinese, who had determined on the cultivation of a market garden in Deniliquin, had anyone anticipated that before a twelvemonth had passed they would be carrying their produce to the Bendigo market, he would doubtless have been laughed at. Yet such has actually occurred. On Thursday our industrious fellow-colonists started a cart loaded with cabbages to the Victorian gold-field, and as very poor specimens of this vegetable are just now fetching a high price there, John expects that his freight will command a very remunerative figure, as well as open the eyes of the Bendigonians to the possibilities of Riverina, even in a season of great drought. Many of these plants, lately cut or now growing in the garden by the lagoon, weigh from 10 to 25 lbs. The Celestials sneer at an Englishman being satisfied with one crop a year, and profess their ability to obtain three."

THE DROUGHT ON THE NORTHERN RUNS.—A memorial to the Governor on the subject of the drought on the Northern runs, was presented by a deputation on Friday morning to the Hon. Commissioner of Crown Lands. The memorial set forth that the petitioners had been subject to unparalleled losses during the past twelve months in consequence of no rain having fallen during that period, whereby their stock had died in vast numbers; and that in many places waters which they had considered permanent, and which had formed the chief inducement to them in occupying the country, had died out. The memorial further stated that the cost of cartage had in every instance quadrupled; that it was impossible in many cases to have stores conveyed to the far distant stations, and that wool could not consequently be brought to a port of shipment; that the petitioners were therefore deprived of one source of income; that they were quite unable to remove any of their stock, and had therefore to submit to the alternative of a prospect of change or the loss of all their property. Under those circumstances, which were alleged to be only a portion of the many grievances under which the petitioners were suffering, the memorialists respectfully suggested that in order to test the truthfulness of their allegations, his Excellency would be pleased to appoint one or more Commissioners to proceed at once to the North and North-Eastern Districts, and after the receipt of their report to offer to the occupiers of the Crown lands such amelioration of the present regulations as would in some measure relieve them from impending ruin. The memorial was very courteously received by the Commissioner of Crown Lands, and we understand that it was transmitted to his Excellency the Governor in the course of the afternoon. Several letters by the last post from the Far North confirm and even add to the bad accounts which had previously been received. The sheep are said to be dying by hundreds—all idea of lambing, or at least of preserving any lambs, is abandoned, and it is certain that at the most moderate computation the entire increase of the two last seasons will be found to have disappeared.—*S. A. Reporter*, April 8.

EXCESSIVE HEAT OF THE SEASON.—The weather has been most unpleasantly hot of late—scorchingly hot—glaring, cloudless days being succeeded by close nights. The dust is as unpleasant as ever. Rain is very much needed, and it is not improbable that the present weather will be succeeded by it. The thermometer yesterday ranged as high as 142° in the sun, and in the shade reached 91. Fine weather for April!—*Riverine Herald*, April 8.

MUNICIPALITIES ACT AMENDMENT BILL.—Mr. Tunks has given notice of the following contingent motion, in committee:—That clause 1 of the Municipalities Act of 1858, worded as follows:—"Any city, town, or hamlet, now or hereafter established, or any rural district, may as hereinafter provided, be constituted a municipality"—be repealed, and that the following new clause be inserted in the Municipalities Act Amendment Bill. "Any city town or hamlet either alone or combined with any adjoining defined portion of land not being part of such city town or hamlet may in manner hereinafter specified be constituted a municipality and any such portion of land separately or more than one of such portions jointly if adjoining each other containing whether one only or more together a population of one hundred inhabitants at least may in manner hereinafter specified be constituted a 'rural district.' Provided that the places already constituted municipalities shall continue as so constituted unless and until altered under this Act. Provided also that the term 'city' shall apply to any place constituted a city by Act of Parliament and the term 'town' or 'hamlet' shall apply to any town or or other defined place or locality containing a population of two hundred and fifty inhabitants at the least."

IMPOUNDING BILL.—Mr. De Salis has given notice that he will move, that the following new clauses be inserted after clause 25 of this bill:—"26. Any proprietor who shall have permitted any animals whose owner is known to him to feed for any time on his land whether on agistment or otherwise shall not drive such animals to the pound or to his own or such owner's enclosure until he shall have given one clear week's notice in writing to such owner to remove the same. 27. No person except the proprietor of any land himself or his overseer or bona fide servant in charge of his stock may drive any animals trespassing on such land to any pound. And any person acting contrary to this enactment or any proprietor permitting the same shall incur a penalty not exceeding £10. 28. Any proprietor finding any animals of an adjoining resident owner trespassing on his land shall not drive the same to the pound but to some convenient enclosure on his own or such neighbour's land giving such neighbour notice thereof and claiming from him in writing such sum for trespass driving and notice as would have been payable if they had been driven to the pound and if such notice and claim be not complied with in twenty-four hours such sum may be recovered as any penalty and the animals if still on claimant's land may be driven to the pound."

EXTRAORDINARY SAGACITY AND FIDELITY OF A DOG.—Mr. Culverson, sexton of the Church of England burial-ground, Orange, gives us the following:—On Saturday last, a child was buried, whose friends live at the Canobias; on Saturday, another one, from Pretty Plains, was committed to the earth within five yards of the former. After the ceremony was over the friends left. On Monday forenoon, Mr. Culverson went to the graves for the purpose of finishing them off in a becoming manner, when, to his surprise, he found a cattle dog lying on the grave of the little one buried on Sunday. The faithful animal would not at first permit the sexton to go near the grave of its dead favourite; and was only dislodged after some trouble. Shortly afterwards the dog was seen still lingering in the neighbourhood.—*Western Examiner.*

MANNA.—The *Examiner* states that under most of the gum trees in the neighbourhood of Orange, manna is plentiful just now. The gum trees being in blossom and the unusual dryness of the weather accounts for the abundance of this singular exudation. The young people of the neighbourhood gather considerable quantities of manna almost daily.

ON THE WRONG SCENT.—Writing to the *Western Examiner*, the Forbes correspondent of that journal states that the mounted police started from the camp in Forbes within an hour after Hall, Gilbert, and Dunn left Jones's store. When the bushrangers left, they started on the road to Currajong, but only travelled about one mile in that direction, and were probably smoking their pipes in Robinson's paddock when the police passed, about half a mile east of the road. The police kept direct on to Currajong, and Hall and Co. breakfasted about twenty miles down the river, at Grudgery, where they supplied themselves with two saddles and a horse. The proclivities of the bushrangers are decidedly strong towards the stations where fleet horses are kept for racing purposes.

THE WENTWORTH MINES.—Things are not what they used to be at the Wentworth mines. The long contest with blue and grey rock has disheartened some of the oldest miners on the field. Some time ago the first claim to the eastward of the mill was abandoned. The party had spent about two years on it, putting down two shafts, and sinking all their capital. The second shaft commenced on the surface with a terrible "blue" rock, and was carried down to a depth of 170 feet, every foot through the same material. They drove from depth to boundary, grew thoroughly disheartened, and finally gave up. The Sawyers (next claim) have knocked off work, also thoroughly disgrained. In the claim between the creek and the Happy-go-lucky the proprietors are to king about giving up—conquered by the hardness of the rock, the prevalence of water, and the want of capital. A little surfacing, yielding 7 dwts. to the load, enables them to keep the wolf from the door. At the Phœnix Company's they are crushing some paying dirt from the block-claim on Chapel Hill. The prospects of the Industry Rewarded have brightened of late, as have also those of the Perseverance and the Uncle Tom—the latter is getting good paying dirt. From the Homeward Bound and Golden Point claims reports are encouraging. Spicer is in luck's away again, and expects to make his pile if the claim continues any length of time as it has begun. From Spicer's to the Golden Gate matters are not promising, and the miners appear much disgusted. In the Golden Gate matters have not progressed favourably of late, in consequence of a desperately hard "grey" rock which has to be blasted foot by foot—thus greatly increasing the expense of working the claim. The party are now making their last effort, and if it do not succeed they will abandon the claim. Stewart's old claim gets on satisfactorily, as do also the adjoining one and Welch's. Milburne's party have discovered a paying vein, but they are at present contending with foul air, and can not do much until the difficulty has been conquered. In the town of Lucknow business is very dull, money scarce, and business men complaining.—*Western Examiner.*

ACCIDENTS.—About three o'clock on Wednesday afternoon, the 5th instant, a serious and distressing accident happened to Mr. Edward Dawes, jun., of Calderwood, near Dapto. It appears the unfortunate young man was one of a party attending the operations of a thrashing machine, at his father's residence, Calderwood, and while taking the straw from the machine his foot slipped, and he fell, with his right hand in the machinery, which was going at full speed. His hand was instantly taken off a little above the wrist, lacerating the sinews and smashing the bone in a most frightful manner. Surgical aid was at once sent for, and an amputation just below the elbow was indispensable, the operation was performed next morning by Drs. Marshall and Lambert, of Wollongong. The sufferer is progressing favourably.—A severe accident occurred on Thursday last to a man named William Kays, at present employed in the survey of the Wingecarribee, by Mr. Hanton, the Government surveyor. Whilst endeavouring to escape from a tree which was falling, he was struck by a sapling, knocked down by the falling timber, and pinned to the ground. On being released and conveyed to the surveyor's tent, he was found to have sustained a fracture of the leg, and numerous severe contusions.—*Kiama Independent.*

A BUSHRANGER'S STRATAGEM.—The *Pastoral Times* of last Saturday mentions that when lately visiting Mr. Mackay's station, Morgan adopted a novel plan of ascertaining the strength of the establishment—the information may be of use to other settlers as a warning—he set fire to the grass, knowing that all would come out to try and extinguish it. He watched from a secluded spot the result of his experiment, and he saw Mr. Mackay and

NOTES OF THE WEEK

FROM THE 7TH OF APRIL TO THE 14TH OF APRIL.

THROUGH the efforts of Captain Bremner, of the Clara Sayers, the Acclimatisation Society of New South Wales have at last received three living gouramy fish, out of 150 fish placed on board at the Mauritius. Although the loss has been very great from cold and stormy weather, yet Captain Bremner has succeeded in bringing these valuable fish alive to Sydney, for which he deserves the thanks of the colonists of New South Wales. The fish have been placed in a suitable pond near the Government House, by permission of his Excellency.

At the Legislative Assembly on Friday, the 7th instant, there was no house, only eighteen members being present. This circumstance was considered to have been one that was purely accidental, and without any political significance.

His Excellency Sir John Young, with Lady Young and *suite*, arrived in town from the Southern districts last Saturday evening.

The members of the Loyal Victoria Lodge in the Sydney district of the I.O.O.F.M.U., have presented a watch and chain to P.G. John Waterman, as a mark of their respect for his assiduity and integrity as the secretary of that Lodge.

The drought still continues, although there are some slight indications of a change of weather in the South-western districts. The Edward River is, however, half dried up. A fine wild turkey was recently shot in the town of North Deniliquin, having evidently been forced to come down to the river in consequence of the drought on the plains. Water is being sold at Eurongilly, on the Tumut, at three shillings per cask or sixpence a bucket. It has been noticed that the brown hawks which have infested the neighbourhood of Echuca for some time past, have of late suddenly disappeared, and it is supposed from this circumstance, that there has been a heavy fall of rain to the northward in the interior. The ibis and carrion hawk are now plentiful about Armidale.

The electors of Newtown are taking active measures to present an address to their late member, Mr. Thomas Holt, expressive of their sympathy with him under the annoyance to which he has been lately subjected, and their full confidence in his character and integrity.

A public meeting, in connection with the Primitive Methodist Society, was held at Newtown last Tuesday week, Mr. S. Payten in the chair. The meeting was held for the purpose of raising funds for missionary service.

Sir Frederick Pottinger, Bart., died at the Victoria Club on Sunday last at 2 p.m., from the effects of a wound received by him from the accidental discharge of a pistol about five weeks since. He was the son of Sir Henry Pottinger, who, in 1839, was created a Baronet for his services as Political Resident at Cutch and Scinde. Sir Frederick, who, at one time, held a commission in the Guards, on his arrival in this colony obtained an appointment in the Police Force, and when the new Police Act came into operation was appointed a Police Inspector, which office he filled until about three months since. Sir Frederick died in his thirty-fourth year. He was attended in his last moments by the Rev. Canon Allwood of St. James's. The deceased was interred at Randwick last Tuesday morning.

By recent letters from Auckland news has arrived of the serious illness of Colonel Kempt, who had a severe fall on board the steamer, as he was leaving Sydney for New Zealand.

Mr. M'Culloch, Mr. Michie, and Mr. Verdon—the Commissioners from Victoria on the subject of the Border Customs—arrived from Melbourne, on Thursday night, in the steamer Alexandra. This colony will be represented at the Conference by Mr. Cowper, Mr. Darvall, and Mr. Smart. The first meeting of the Conference will be held this day (Saturday), at the Colonial Secretary's Office. Mr. M'Culloch is the Chief Secretary for Victoria, and Mr. Verdon the Colonial Treasurer.

Mr. H. O. Thompson's concert, in aid of the sufferers by the late boiler explosion at the Waterview Dry Dock, took place last Saturday night in the Oddfellows' Hall, Balmain. The programme was well selected, and rendered with accuracy and good taste.

Mr. and Mrs. George Case, a portion of the Lyster Opera Company, and Mr. Caffyn, the cricketer, arrived by the City of Melbourne on Sunday last. Caffyn has been released from his engagement with the Melbourne Cricket Club.

In a small cave, near the residence of Mr. M'Donald, of Dunmore's Flat, Goulburn River, a very interesting discovery has been made. The sandstone of the rock in which the cave is situated has been fretted away by time, leaving an iron stratum to form the roof. On this are plainly imprinted various objects. There are sixteen human hands, some with broad palms and short thick fingers, like the hand of an athlete; some with thin wrists and taper fingers, evidently the hands of women; while some are the hands of mere children. There are also the imprints of the following weapons: a woomera, a nulla nulla, a boomerang, a wimmera, and three tomahawks—old flint blades bound to the handles by currajong. The designs appear to have been, for the most part, imprinted with some preparation which took effect on the iron. These objects cover a space of about six feet square, and might easily be preserved. Similar representations of objects, made long ago by the aborigines, have also been discovered at Dabee.

A horrible outrage is reported by the *Yass Courier* to have taken place, about a fortnight since, at Phil's Creek—the victim being a married woman named Cade. The criminal—a man named Tuckwell—has been identified by the woman, and is now in custody.

The notorious bushranger, Daniel Morgan, was shot last Sunday morning at the Peechelba station, about eight miles on the Victorian side of the border, and twenty from Wangaratta. The party who did the State this good service was John Quinlan, who will, doubtless, be duly rewarded. The merit of this riddance is shared in by a young servant girl, whose name is not known, but whose spirited conduct throughout the whole period of the murderer's visit to Peechelba has elicited very general admiration. Morgan had been staying at Peechelba all the night before he was shot, and was in the act of driving several persons before him with his loaded revolver pointed at them, when he was cleverly brought down by Quinlan. The brutal wretch survived for several hours, and died hardened and impenitent, at two p.m. The news of his death was received in Sydney on Monday morning last, and caused universal satisfaction—tempered, however, by some regret that he should not have lived long enough to be hanged.

Last Tuesday evening Mr. N. D. Stenhouse delivered, in the Oddfellows' Hall, at Balmain, a lecture on the Life and Writings of William Thom, the poet. The lecture was delivered in connection with New Total Abstinence Society at Balmain. There was a large and appreciative audience.

The *Encænia*, or Annual Commemoration of the Sydney University, took place on Saturday, the 8th instant, and was attended by many hundreds of persons of both sexes, consisting of the leading residents of Sydney and its immediate neighbourhood, and other distinguished visitors. Four Bachelors of Arts were admitted to the degree of M.A.:—Messrs. Murray, Colyer, Docker, and Mein. The Messrs. Long, Cape, L. O'Brien, Pilcher, and Thorne were also admitted to the B.A. Degree. The Chancellor delivered a long and able address.

Considerable interest has been excited in Sydney by by news of the discovery, at American Creek, in the Illawarra District (about six miles from Wollongong), of large beds of the mineral from which kerosene oil is produced. A number of samples were recently forwarded to Sydney to be subjected by Mr. C. Watt to an analytical test; they were obtained near the surface, and it was expected that the quality would be richer at a greater distance from the air and the sea. Mr. Watt extracted thirty-two ounces of crude oil from eight pounds of the material. Another account states that the yield has been 50 per cent. The gas companies are willing to give £3 per ton for the material.

The usual quarterly Inspection Parade of the Volunteer Force of all arms took place in the Outer Domain last Saturday afternoon. This was the first full dress parade of the force since the recent appointment of Lieutenant-Colonel Richardson. The attendance was good, although not so large as was expected.

On Saturday last, the foundation stone of a new-vested National School was laid at Marrickville, on ground given for the purpose by Mr. Chalder, near the Undercliff Road, at the rear of Mr. Paton's property. About a hundred persons assembled to witness the ceremony, which was performed by Mr. Holt. The stone was hollowed to receive a bottle containing a parchment, on which were inscribed the names of the present Governor, the Ministry, the members of the Municipal Council, and the local patrons.

Mr. John Colley, of the Long Brush, has succeeded in producing from the sorghum a sample of sugar which the most fastidious need not object to use, it having an exceedingly rich and pleasant taste. In colour it is a shade darker than what is known as Company's sugar. It is, however, still damp—although grained perfectly—thought to be owing to the stalks from which it was manufactured not being sufficiently ripe, or from some deficiency in the preparation, it being the first experiment, and done under considerable disadvantages.

The Felons' Apprehension Act being now in force there will of course be much less risk of life in effecting the capture of outlaws by this or any other means. It will no longer be necessary to challenge such robbers before shooting at them, as heretofore.

On Monday last, a man, about forty years of age, jumped into the shoal of Darling Harbour, at the foot of Bathurst-street, with the intention, as it was supposed, of drowning himself. He was taken from the water by a person in the neighbourhood, and removed to the Infirmary by the police.

Mrs. Smith, the wife of Mr. Smith of the Glasgow Arms, George-street, was knocked down by an infuriated cow, in William-street, on Saturday evening last, and severely injured.

Last Monday evening, a valedictory tea meeting—previous to the departure of the Rev. W. Curnow from the Sydney First Circuit—was held in the schoolrooms under the Wesleyan Church in York-street, and was very numerously attended. After the social repast had taken place, the company repaired to the church, where a public meeting was constituted, at which the Rev. S. Chapman, the superintendent of the Circuit, presided.

An introductory lecture in connection with the Irish National League was delivered last Monday night at the Lyceum Theatre, by Mr. Daniel H. Deniehy, on "Irish Ballad Poetry,"—the Hon. John Robertson being in the chair. There was a large and appreciative audience. Mr. Henry Parkes, Mr. J. Hart, Mr. Cunneen, Mr. W. Cummings, the Mayor of Sydney, and Mr. H. Milford were amongst the gentlemen who appeared upon the stage in support of the lecturer, who handled his subject with good taste and eloquence.

The anniversary of the Bourke-street Wesleyan Church was celebrated by a tea and public meeting, held in the Model Schoolrooms, Botany-street, last Monday night. There was a crowded attendance.

About ten days since some miners obtained at the bottom of a forty-foot shaft, in the neighbourhood of Young, the entire lower jaw of some extinct species of animal. The bones and teeth were firmly imbedded in a coating of what appeared to be a whitish cement, but the shape of the jaw was very clearly defined. It was about eight or ten inches long, and about six inches across in the broadest part, tapering towards both front and back to about two inches. The jaw was of a most peculiar conformation, arched in the centre, with the front and back teeth nearly on a level, and those between them gradually rising to the centre, where the teeth were fully 1½ inch higher than those at the ends. This curious relic of a bygone age is now in the possession of Mr. H. P. Williamson, who intends forwarding it to the Sydney Museum, when the nature of the animal, and the epoch to which it belongs, will doubtless be speedily determined by Mr. Krefft, the curator.

A bill to provide for the destruction of the Bathurst-burr, dock, and certain thistle plants has been introduced into the Legislative Council by Sir W. Manning.

The subject of Ways and Means is still undetermined in the Assembly. The House adjourned for a week on Wednesday last for the Easter recess.

A large and varied assortment of dissolving views was exhibited at the School of Arts, Pitt-street, on Monday evening. The attendance was numerous, and the entertainment a pleasing one.

Amongst the recent deaths we have to record the following:—An aged woman, named Mary Anne Welch, died on Tuesday last from exhaustion, brought on by intemperance.—A man named James Drennan died suddenly at his home in Johnson-street, Glebe, on Sunday afternoon. He appeared to be in good health up to the time of his death, which was occasioned by a fit of apoplexy, the result of disease of the heart.—A man named John Francis died about a fortnight since, at Burrangong Hospital, from the effects of having taken into his system animal poison whilst skinning a diseased sheep at Curwang, on the 22nd of March.—John Heppel died of intemperance, in Lower George-street, last Thursday morning.

Since the commencement of the Maitland assizes, his Honor Mr. Justice Milford, the Judge on circuit, has been indisposed, and on Wednesday his illness rendered him unable to leave his bed; the Circuit Court was consequently adjourned until ten o'clock on Thursday morning. His Honor is still confined to his room.

On Thursday evening a Masonic banquet was given by the members of the Scottish Constitution in honour of the Right Worshipful Dr. Belisario, Provincial Grand Master of that division of the Masonic Brotherhood in New South Wales. The affair came off at the Assembly Rooms of Br. John Clark, in Elizabeth-street, and was numerously attended by the brethren.

The Sydney Philharmonic Society gave their fourth concert of the present season at the Masonic Hall last Thursday night.

A lecture in connection with the Darling Point Mutual Improvement Association was delivered by Judge Francis, in St. Mark's Schoolroom last Tuesday evening, the subject being, "Critical Readings from Shakspere." There was a numerous attendance. The chair was taken by the Rev. T. Kemmis, the Vice-President of the Association.

A pleasing entertainment came off last Tuesday night in the new Presbyterian Church, Pyrmont. The programme contained a choice selection of sacred and secular music.

A considerable number of members having seceded from the Woollahra Congregational Church, in consequence of certain alterations made at the commencement of the present year, a social tea meeting was held in the schoolroom, last Monday evening, for the purpose of expressing the sympathy of the Church and congregation with their pastor, the Rev. J. E. Vetch, B.A., and their undiminished confidence in him. The schoolroom was tastefully decorated with leaves of the zamia and flowers. The *reunion* went off with much *eclat*.

A deputation appointed at a meeting held at Wollongong last week, with reference to the harbour works at that port, waited upon the Minister for Works on Wednesday last, for the purpose of presenting a memorial adopted on that occasion. The deputation consisted of Mr. Osborne, M.L.A., Mr. W. Speer, and Mr. Robson. Mr. Arnold informed the deputation that no further supplementary Estimates could be introduced until the next session of parliament.

MERCANTILE AND MONEY ARTICLE.

FRIDAY EVENING.

TO-DAY, being Good Friday, has been observed as a close holiday.

The arrivals to-day have been the Lalla Rookh with seventy tuns of cocoanut; the Emilie, from Calcutta, via Melbourne, with 9000 bags of rice, and the Marguerite, from Calcutta, with 9990 bags of rice.

The amount of gold coin issued by the Sydney Branch of the Royal Mint, during the week ended April 13th, has been 95,000 sovereigns.

The quantity of gold dust imported into the same establishment, during the week, for the purpose of coinage, has been 41,446 ounces.

The Southern Escort arrived during the week, and delivered at the Sydney Branch of the Royal Mint the following quantities of gold dust:—From Braidwood: 3498 oz. 4 dwts. 22 grs.; Kiandra, 491 oz. 4 dwts. 20 grs.; Goulburn, 175 oz. 16 dwts. 15 grs.; Burrangong, 565 oz. 17 dwts. 1 gr.; Adelong, 545 oz. 9 dwts. 28 grs.; Tumberumba, 93 oz. 5 dwts. 6 grs.; Gundagai, 219 oz. 5 dwts. 17 grs. Total, 5589 oz. 4 dwts. 8 grs.

A moderate amount of business has been transacted in the share market this week, but, with the exception of Bank shares, the capital invested has been small. The approaching half-yearly meetings tend to strengthen prices; hence there is a disposition to purchase the shares of those securities which are about to declare a dividend. The fluctuations that have taken place are as follows:—Bank of New South Wales and Commercial Bank shares are steady at quotations. Australian Joint Stock Bank shares are firmer, the proposal to increase the capital of this bank having caused buyers to come forward. City Bank shares are firmer and have an upward tendency. In Steam shares we again notice a decline of 20s. per share in the price of the Australasian Steam Navigation shares. This was, however, a forced sale of a small lot, and there are again buyers at £16 per share. Hunter River New Steam Navigation shares are not so firm, and have given way 10s. per share. Clarence and Richmond River Steam Navigation shares are very dull of sale, and are offered considerably under the last quotation, but no actual sales have yet been made. Illawarra Steam Navigation shares are firmer, and have improved 2s. 6d. per share. Insurance shares have recovered somewhat from the decline caused by the late serious fires, and buyers are again coming forward. General Assurance shares have improved 2s. 6d. per share, and there are buyers of the shares of the Sydney, United, Pacific, and New South Wales Marine Insurance shares at last quotations. The following are the rates at which sales have been made during the week:—Bank of New South Wales, £41 10s. and £42 per share. Commercial Bank, £51 10s. per share. City Bank, £10 7s. 6d. per share. Australian Joint Stock Bank, £14 10s. per share. Australasian Steam Navigation Company, £16, £15, and £16 per share. Queensland Steam Navigation Company, £5 per share. Hunter River New Steam Navigation Company, £12 10s. per share. Illawarra Steam Navigation Company, £4 and £4 2s. 6d. per share. General Assurance Company, £8 7s. 6d. and £8 10s. per share. New South Wales Marine Assurance Company, £3 15s. per share. Sydney Insurance Company, £2 12s. 6d. per share. United, £1 7s. 9d. per share. Wallsend Coal Company, £7 per share. Fitzroy Iron Mining Company, £4 per share.

DEBENTURES.—Government debentures are flat. Terminables have been sold at 95 and interest. City of Sydney debentures have changed hands at 95 and interest; and New Zealand Government debentures at 100½ and interest.

The following table will show the closing prices of our securities as well as the rates at which sales have been made during the week:—

Business has been quiet during the week, and with the exception of a few articles there is very little alteration to report in prices. Flour is very dull of sale, and buyers will only operate to meet immediate wants. Adelaide is quoted at £22 to £23 per ton. Wheat, 9s. 3d. to 9s. 6d. In liquids there has been some speculation in brandy, and large parcels of Martell's and Hennessy's have been bought up at an improvement of 6d. per gallon. Martell's is quoted at 8s. 6d. to 8s. 9d. per gallon. Rum is firm; 30 o.p. is worth 3s. 10d. per gallon. Teas have been in greater request and sales have been made at improved rates. Sugars are firm, and the late advance has been maintained. In other articles of daily consumption we have no change to report.

TOBACCO.—Good saleable samples of tobacco are in request amongst the trade, and some few parcels cut up at improved rates. Good tens have been disposed of during the past week at 1s. 4d., and what few stocks we have of sound Southern twist holders retain for better prices. Of this article we never saw the market so bare.

CIGARS.—We have but little to notice in this market. Stocks are low. The figure unchanged—from 55s. to 60s. for Havannah shapes, and very little demand. Some of the late shipments from Manila are of a very superior character.

COMMERCIAL.

STOCK AND SHARE CIRCULARS.

W. BARTON,—I have not much alteration to notice in the share market this week. Bank shares are firm, and in request. Steam shares, with the exception of Illawarra, are dull of sale. Hunter River have declined 10s per share. Fire Insurance shares obtain more confidence, and higher rates are demanded. My sales consist of—Joint Stock Bank shares, at £14 10s.; City Bank shares, at £10 7s 6d.; Australasian Steam shares, at £16; Sydney Insurance shares, at £2 12s 6d.—13th April.

LESSON AND CARY.—A good amount of stock has changed hands with us this week, and the shares of some of the companies about to hold their half-yearly meetings meet with ready sale when offered. Insurance shares are inquired for, but very little of this stock is offering. Our sales this week have been in Bank New South Wales shares, £41 10s; Commercial Bank shares, £51 10s; Australian Joint Stock Bank ditto, £14 10s; Australasian Steam Company ditto, £16; Illawarra Steam Company ditto, £4; New South Wales Government debentures, 95 and interest; City of Sydney six per cent. ditto, 95 and interest; New Zealand Government 87 ditto, 100½ and interest.—13th April.

J. MULLENS.—I have done more business this week than for some time past. Bank shares command full rates, but there is a difference between buyers and sellers in Australian Joint Stock Bank shares, investors refusing to pay the advance of 5s demanded in consequence of the intended increase of capital. I have made a forced sale of Australasian Steam shares at £15, but there are now buyers at £16. New Hunter Steam shares are a little lower, and Illawarra shares have improved 2s 6d per share. General Assurance shares have also improved 2s 6d per share. My sales this week have been:—Bank of New South Wales shares at £42, City Bank shares at £10 7s 6d; Commercial Bank shares at £51 10s, Australasian Steam shares at £15, New Hunter Steam shares at £12 10s, Illawarra Steam shares at £4 2s 6d, Australian General Assurance shares at £8 10s, New South Wales Marine Assurance shares at £3 12s 6d, Wallsend Coal shares at £7.—13th April.

W. CHATFIELD.—The business transacted this week has been rather below the average. Bank stock, with the exception of City Bank, has not been much in demand. For City Bank there are buyers at £10 7s 6d. Shares of other Banks are firm at quotations. General Assurance have been sold at an improvement of 2s 6d per share; other Insurance shares are firm at last week's prices. Australasian Steam, in small parcels, have been freely enquired after at £16. I notice a forced sale at £15. Illawarra's are saleable at £4—buyers predominate. In Mining stock and Debentures, I have nothing to report. My sales have been:—Queensland Steam, at £5; General Assurance, at £8 7s 6d and £8 10s; United Insurance, at £1 7s 9d; Fitzroy Iron, at £4.—13th April.

G. H. EDGWORTH.—Wool: There is no change to report in the market this week. It was expected the mail would have been telegraphed, and furnished further information of the state of trade in the manufacturing districts. Prices must be reported nominally the same as last week. Sheepskins have sold at about former prices, but fellmongers are not anxious to operate at any increase in price. Tallow: To-day the sales were without animation, and the highest price for beef was £31 per ton. Mixed melting not so much in demand, but mutton is wanted for the neighbouring colonies, and is worth 34s per cwt. Hides: Some fine heavy well cured realised 14s 3d each, and a choice parcel of selected heavy, averaging an outside weight, brought 17s 6d each. Light and inferior about the same as before.—Wool: Mixed, RP, 5 bales at 10½d; lambs, F, 1 at 14½d; mixed and black, F, 1 at 10½d; washed pieces, W, 1 at 9d; locks, BE, 1 at 9d; scoured, M, 1 at 15d. Sheepskins: H, lot at 4½d; F, lot at 7½d; D, lot at 4¾d. Tallow: M, 1 cask at 31s; B, 21 at 31s. 46 hides at 7s; 11 calfskins at 3s 6d; 381 hides at 14s 3d.—13th April.

J. BREWSTER.—Stations: There is not much inquiry except for first-class stations. Parties having money to invest are looking for lower rates, and for outside stations. This will have to be submitted to if sales are forced. Store Cattle: I have several buyers for bullocks, and well-bred cows of selected ages. Rough lots are difficult to get rid of. Store Sheep: Young ewes in Queensland, and in the Western districts of New South Wales, are very saleable. Store wethers suitable for fattening are also inquired for, if well situated, being worth from 8s to 8s 6d per head.—13th April.

THOMAS DAWSON.—Fat Cattle: Market full of stock, and prices barely equal to last week's quotations. Some few of each note can be picked to show high prices, but the fair average estimate is the average of the lot. I sold 104 head fat bullocks at Lahnan's RD conjoined brand, at £8 5s, which may be considered the fair market value. Fat Sheep: A full supply on hand. I sold a fine mob this week of 1300 of middling quality, at 10s 6d. Store Sheep and Cattle: No alteration to report. We have this week paid 1000 bullocks at 40s, delivery taken on the Clarence River. This market is completely glutted; they may be given away, but certainly not sold; even useful horses cannot be quitted at anything like reasonable prices.—13th April.

STOCK, STATION, AND PRODUCE CIRCULARS.

HOSE AND CO.—Wool: The attendance at the weekly sales this day was confined almost entirely to the brokers engaged at the usual sales. Of 380 bales catalogued we placed 211 bales, and for most of the parcels quitted there was a brisk competition, and the prices realised were fully equal to those which have ruled for the last few weeks. Sheepskins: We offered rather more than 1000, in which were included several lots of inferior and short-woolled skins, for which 5d to 5½d was obtained; full-woolled skins brought 8d per lb. To-morrow being Good Friday, and Saturday being a holiday generally observed, we have postponed our weekly sale of tallow and hides to next week. For particulars of this day's sale see at foot. Produce Sale.—Wool: Greasy, EHL over Borah, 1 bale at 9¼d; ditto, 1 at 8¾d; fleece, I, 1 at 15d; greasy, BT, 1 at 9d; ditto, ditto, 2½ at 10½d; ditto, KBT, 5 at 9¾d; scoured, C&W in diamond, 2 at 18¾d; fleece, RT, 4 at 19d; ditto, HE conjoined, 25 at 18d; ditto, K, 15 at 15d; ditto, MH conjoined, 9 at 18d; ditto, JD, 12 at 15½d; mixed, HR conjoined, 1 at 7¾d; mixed, GT, 1 at 12d; grease, BP, 1 at 7¾d; clippings, RT, 1 at 7½d; locks, LL conjoined, 1 at 6¼d; locks and greasy, ditto, 1 at 5d; fleece, Low, 29 at 20¾d; handwashed fleece, HC, 1 at 20d; scoured, C&W in diamond, 1 at 12½d; grease, B over AK, 1 at 9¾d; scoured, MOR, first quality, 3 at 19½d, second quality, 2 at 18d; grease, HN over LD in diamond, 14 at 8d; fleece, JA, 10 at 10½d; grease, M, 6 at 10½d; scoured, P in diamond, 3 at 17½d; ditto, C in triangle over 15old, 12 at 17½d; fleece, MaM, 29 at 16½d. Sheepskins: 1 lot at 1¾d, 3 bundles at 5¾d; Fover RY, 6 bundles at 6d; WB, 6 ditto at 5d; G, 2 ditto at 5d, 1 bundle skins and black wool at 8d; B over AK, 1 ditto ditto at 3d, 19 skins at 5d.—13th April.

DUNBAR AND DUNLOP.—The lots offered this day at the Chamber of Commerce were unimportant. Quotations are much the same as last week. Our sale resulted as follows:—Fleece, JJW in diamond, 1 bale at 15½d; locks, L, 1 at 6¾d; skin, MR over No 3, 4 at 13¾d; ditto, MR, 2 at 11d; greasy, NZ, D over ABL in diamond, 1 at 9½d; mixed, J, 5 at 11d; skin, BF, 1 at 14d; pieces (damaged), WM over West Barran, 2 at 6d; greasy, JJW in diamond, 3 at 9¾d, lambs and fleece, JB, 3 at 13d; scoured lambs, AA over L, 4 at 22¾d; locks and pieces, GHG, 1 at 8¾d; locks, R, 1 at 9d; fleece, DMF, 18 at 17d; locks, ——, 2 at 4¾d; scoured lambs, ML, 9 at 15¾d; greasy, F, 1 at 9¾d per lb. Sheepskins: Over 1000 were catalogued for our sale, the whole of which were of an inferior character, being short-woolled and low conditioned. Prices ruled thus: MS conjoined, 1 bale at 6d; RG, 1 lot at 6d; GM, 1 lot at 4d; FB over Y, 2 bales at 5d; JS, 1 bundle at 6d; B, 1 bale at 5¾d; B, 1 bundle pelts, at 7¾d; P, 1 ditto ditto at 1½d per lb. Tallow: The quotations ruling this week are much the same as those of last; a demand for bright parcels of mutton has sprung up, to supply orders from the neighbouring colonies. We disposed of, this day, some 70 casks as follows:—GM, 4 casks at 28s; R&Y, 15 at 28s; J over N, 24 at 31s; Collingwood, PYC, 20 at 31s; DM, 3 at 31s 6d; BA, at 28s 6d; WN, 1 at 32s; ditto, 2 at 28s per cwt. Hides: This market continues without alteration; first-class heavy are in good demand at extreme prices; the lots offered this day were above the average quality of the usual week's supply—828 were disposed of, of which four prime lots were taken thus:—R&F, 93 at 17s 6d, 126 at 18s 6d, 177 at 18s 7d, 11 at 13s per hide. Prices throughout ranged thus:—77 at 11s 3d, 54 at 8s 6d, 37 at 11s 9d, 93 at 11s, 120 at 11 8d, 95 at 17s 6d, 26 at 14s 6d, 88 at 11s 3d, 177 at 13s 7d, 11 at 13s. Calfskins: 17 at 3s 3d, 12 at 2s 6d, 17 at 1s 6d, 4 at 3s 10d, 4 at 4s 6d each. Leather: 4 bundles kip at 15½d; 30 sides sole at 8¼d per lb.—13th April.

BUSH AND CO.—Horses: Market active for well-broken stock; useful horses to ride and drive much wanted. Cart stock are doing better; sound young horses, with good trials, sell readily for shipment to New Zealand and Queensland. Unbroken Stock: Market overstocked with small-sized inferior kinds, mostly mares, for which there is no sale; but, serviceable colts sell readily. Fat Cattle: The market heavily stocked with inferior cattle, which it is hard to sell, prices varying from 30s to 50s. Prime bullocks are worth from £5 15s to £4 10s. At the Victoria Yards, on Monday, we sold bullocks from £5 to £4 5s, and cows £2 15s to £3 10s. On Wednesday, 115 of Mr. W. F. Buchanan's (a middling lot, nearly all cows) averaged £2 11s 6d. Store Cattle: Market active, with large demands for southern markets. Contracts have been made to deliver on the Lachlan and Murray, from £2 5s to £3, for equal sexes, and £3 for bullocks. Several sales of fat stock, delivered on the station, are reported at £3, £3 10s, and £4.—13th April.

NEWELL AND WALLIS.—Prices obtained at the City Auction Depot:—Cows, from £2 10s to £7; calves, 4s 6d to 35s; lambs, 7s 6d to 16s; pigs, 15s to 45s; roasters, 3s 6d to 6s 9d; fowls, 3s to 4s; ducks, 3s to 5s; geese, 6s to 8s; turkeys, 10s to 17s 6d; butter (keg), 6d to 10d; butter (roll), 10d to 1s 2d; eggs, 1s 6d to 2s; bacon, 3d to 5d; cheese, 3½d to 6d; hay (oaten), 3s to 6s; lucerne, 2s 6d to 4s 6d; straw, 2s to 4s.—13th April.—Adv.

LABOUR MARKET.

HAIGH AND BROWN.—There is a large number of applicants for employment in attendance, consisting of most descriptions of servants. We have inquiries for blacksmiths for the country, and but limited demand for other kinds of mechanics. Farming men are in greater request, especially for the Northern districts, indicating greater activity in agricultural operations. Female servants are somewhat scarce. With requisite qualifications as to character and experience they can with tolerable facility obtain situations. Rates of wages continue as per last report.—13th April.

Pork, 4s to 4s 3d per cwt.

HORSE MARKET.

MR. C. MARTYN reports:—There is scarcely any alteration in the horse market since last report. The Bazaar sales comprised drafts from almost every part of the colony, the total number offered being far larger than for several months past, and considerably in excess of the demand. There is no improvement as to the quality of the stock, and in most cases they are but roughly broken-in. Prices generally have ranged from £3 15s to £20; higher prices being obtainable only for first-class thoroughly broken horses. At Camperdown a few small drafts of light stock were sold at from £1 to £9 per head.

RELINQUISHING THE RETAIL BUSINESS.—SELLING OFF the Open Stock, Watches, Jewellery, Fancy Good, &c.
W. SABER, in returning thanks for the patronage bestowed upon him for the last twelve years, wishes to inform his customers and the public in general that he intends relinquishing the retail business, and that the whole of his open stock of watches, jewellery, and fancy goods will be offered at such prices as must effect a speedy clearance. W. S., in retiring from the retail, begs to inform his town and country customers that his business for the future will be exclusively confined to the wholesale. Shipments will be received monthly by the overland mail and regular packet ships, so that the newest and most saleable good will always be found in stock; to this may be added an experience of over twelve years, and a thorough knowledge of the requirements of the colony, extensive arrangements having been made in England for the regular supply of goods, so that persons in the country may rely upon having their orders completed to their satisfaction.
W. S. also wishes it to be known that he has always got on hand a large and well assorted stock of photographic goods, which he guarantees to sell at 20 per cent. less than any other house in the trade. The jewellery department will always be found to contain the newest and most fashionable articles of the day, and he hopes that parties in the trade will still give him their support (as they have hitherto bestowed upon him), and they will find that he charges a small profit, such as will only leave a very small margin for the importer.

Total sheep ..	13,150 more or less.

Terms at sale.

RICHARDSON and WRENCH have received instructions to sell by public auction, at the Rooms, Pitt-street, Sydney, on TUESDAY, the 9th May next, at 11 o'clock.

The above first-class pastoral property—

MALVERN HILLS STATION is situated on the BARCOO RIVER, about 450 miles from ROCKHAMPTON, and is considered to be the PICK OF THE BARCOO, or GREAT WESTERN DOWNS.

It embraces an area of about 400 square miles of richly grassed undulating downs country, abounding in all kinds of SALTBUSH, including the valuable MURRUMBIDGEE variety, as well as many other sorts of fattening herbage. The run is abundantly and permanently watered, and even in the late dry season there was a plentiful supply. Its grazing capabilities are estimated at 60,000 sheep in the driest season.

Malvern Hills is surrounded by the well-known properties belonging to Messrs. Harden and Manning, Moore and Reid, Prisons and Crovett, Hon. J. C. Ellis, and Earl of Macclesfield.

The improvements consist of men's hut, woolshed, yards, &c.

With this station will be sold
13,150 SHEEP, MORE OR LESS, as above.

Stores:—Dray team, working stock, and all belongings to the stations to be taken by valuation in the usual way.

☞ RICHARDSON and WRENCH beg to direct the special attention of capitalists to the above valuable property as being the best FIRST-CLASS STATION, NOT ONE-QUARTER STOCKED, which has been brought into the market for a long time, and as it is determined to dispose of it on the date above named, the opportunity for purchasing so desirable a property should not be overlooked by parties seeking a profitable investment in a sheep station.

*** This is one of the CHOICEST BLOCKS OF LAND IN THE CITY, with an eastern aspect, overlooking HYDE PARK, admirably adapted, as a whole, for a site for a CHURCH, or other LARGE PUBLIC BUILDING. If desired by purchasers it will be sold in THREE LOTS, each having a frontage of about 22 feet. Lot 1 will include the LARGE TWO-STORY CORRUGATED IRON STORE now used as a carriage repository. On lots 2 and 3 are a weatherboard cottage, and a number of premises at the rear.

LOT 2.—WOOLLOOMOOLOO BAY.
Lot 12 of the Grantham Estate, adjoining Yates' boat-building establishment, and divided by a lane from Mr. Goold's property, having a frontage of about 120 FEET TO VICTORIA-STREET, and extending to WOOLLOOMOOLOO BAY, to which it has a similar frontage.

There is a good stone wharf on a portion of this land. It is close to the NEW CIRCULAR QUAY, and has a very large prospective value.

LOT 3.—COOK'S RIVER.
10 ACRES of land, Cook's River, nearly opposite the residence and grounds of G. W. Lord, Esq., and adjoining Cooper's, Lynch's, and Webb's lots.

LOT 4.—TOWN OF ST. LEONARD'S.
Block of LAND, containing about two acres, at the corner of Walker and Earnest streets, adjoining the well-known property of Mr. M'Guinness, and the land of Messrs. Flood, Clifford, and others, being lots 9, 10, 11, and portion of lot 8 of section 26, as per Government plan.

LOT 5.—PARISH OF WILLOUGHBY.
3 BLOCKS of land, containing each from 5 to 6 acres, near Middle Harbour.

LOT 6.—LONG BAY, MIDDLE HARBOUR.
24 acres, about two miles from the North Shore Ferry, fronting Long Bay, with orchard, &c., of 6 acres.

*** About six acres have been trenched and planted as an orchard. There are about 600 trees, most of which are just coming into bearing, and have been selected with great care.

LOT 7.—LANE COVE ROAD.
52 ACRES of land at the junction of the Lane Cove and Pittwater Roads, divided by the latter from HILL'S ORANGERY.

*** This a valuable farm. The land is good and well adapted for orchard culture.

LOT 8.—PETERSHAM RAILWAY STATION.
5 blocks of land on the Norwood Estate, close to the Station, and the residence of J. R. Jones, Esq., being lots 11, 12, 13, and 14 of section 6 of the Norwood Estate, having 80 feet frontage to the Canterbury Road, extending to Chester-place.

These lots on Norwood Hill form one of the finest sites on the Railway line, commanding an extensive, beautiful view, and at the same time only a few hundred yards from the station.

☞ Particular attention is directed to the sale of the above, as the instructions of the Trustee are to sell the whole

WITHOUT ANY RESERVE.
TO WIND UP THE ESTATE.

The lots will therefore be positively sold, and intending purchasers are requested to inspect the several plans at the Rooms, where also further information may be obtained.

Terms at sale.

HIGHLY-IMPROVED PICTURESQUE VILLA SITE.
HEIGHTS OF RANDWICK.

Containing about 5½ ACRES, adjoining St. Mark's Glebe, and in the immediate vicinity of Bishop's Court, and the well-known properties of Messrs. Callaghan, Moore, Hebblewhite, and others.

RICHARDSON and WRENCH have received instructions from James Hart, Esq., M.L.A., to sell by public auction, at the Rooms, Pitt-street, on MONDAY, 1st May, at 11 o'clock,

All that piece of land, containing 5 acres 1 rood and 30 perches, being suburban lots 34 and 35, near Coogee, having extensive frontage to Allison Road and Nathan-street, adjoining St. Mark's glebe.

☞ This fine site is romantically-situated on the slope of a beautiful hill, adjoining St. Mark's glebe, from which it is divided by a rivulet, a never-failing stream, which hurries along its course beneath a mass of shade and overhanging banks, covered with graceful ferns, cabbage-trees, and other indigenous plants.

The position is unequalled by any other spot in this favourite suburb, and the varied scenery surrounding it not only embraces Coogee Bay and the ocean beyond, but commands a magnificent panoramic view of the surrounding country.

During the last five years a very large amount has been expended on this land in planting, terracing, and otherwise forming ornamental grounds, and, as far as taste (irrespective of cost) can direct and age mature, everything has been done in accomplishing that object.

An inspection is invited prior to the day of sale. The gardener in charge will show intending purchasers over the grounds.

The approach is by Nathan-street, leading from Whale-street.

Cards to view may be obtained, and plans inspected, at the Rooms.

Terms at sale.

To Capitalists, Speculators, Small Investors, and others.

OCEAN STREET,
POINT PIPER ESTATE,

BRESSLINGDEN VILLA.
A HANDSOME FAMILY RESIDENCE,
with 2 Acres Ground adjoining, or in close proximity to the well-known properties of Hon. Alexander Campbell, Esq., M.L.C., William Laidley, Esq., M. G. Stephen, Esq.

Terms at Sale.

MORT and CO. have received instructions to sell by public auction, at the Rooms, Pitt-street, on WEDNESDAY, 19th April, at 11 o'clock,

BRESSLINGDEN VILLA,

A remarkably neat well-finished family residence, built of brick, cemented, with slate-roof, containing wide verandah, hall, eight rooms, kitchen, servants' room, and offices

The grounds comprise about 2 acres of land, having 300 feet frontage to Ocean-street and 540 feet frontage to Reserved Road, a large portion of which is available for subletting.

The land is held under a 99 years' lease, at a low rental.

☞ To those seeking a really comfortable well-finished suburban villa in a delightful locality, and on the very pick of the Point Piper Estate, Bresslingden Villa can with confidence be recommended. It is surrounded by first-class properties with ornamental grounds, and the position being very elevated, commands views unsurpassed for extent and beauty by any other site in the neighbourhood.

PLAN on view at the Rooms, where also cards to view can be obtained.

IN THE SUPREME COURT OF NEW SOUTH WALES.
In Equity.

Between TIMOTHY REARDON, Administrator of the late Matilda Reardon, formerly Matilda Taylor, plaintiff; and WILLIAM HELLYER and others, defendants; with the approbation of the MASTER IN EQUITY.

CITY OF SYDNEY.

SIX VALUABLE ALLOTMENTS, SOUTH HEAD ROAD, immediately opposite THE CHURCH OF THE SACRED HEART.

Terms at sale.

MORT and CO. have been instructed by the Master in Equity to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock on WEDNESDAY, 3rd May,

The following valuable freehold building sites, situate in the CITY OF SYDNEY.

6 valuable allotments, each having a frontage of about 20 feet to the OLD SOUTH HEAD ROAD, by a depth through to TAYLOR-STREET of from 70 to 88 feet.

*** These allotments are immediately opposite the CHURCH OF THE SACRED HEART, and comprise the land formerly cultivated by Mr. Case, adjoining his present Veterinary Establishment, and are portion of the property of the late ROBERT TAYLOR. The position is a rising one, and is daily increasing in value. The division is made to suit the wants of small capitalists, mechanics, and others.

Plan on view at the Rooms.

FOR POSITIVE SALE.

THE GLOUCESTER HOTEL,
CHURCH AND QUEEN STREETS, GLOUCESTER.

Situate on the road to the Manning, Port Macquarie, and New England.

Title, unquestionable.
For particulars apply to JOHN DAWSON, Solicitor, Pitt-street.
Terms at sale

MORT and CO. have received instructions to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock, on WEDNESDAY, 3rd May,

That capital and well-known hostelry,

THE GLOUCESTER HOTEL,

Situate at the junction of Queen and Church streets, Gloucester, being allotments 11 and 12 of section D of the subdivision of the township, now licensed, in full trade, and occupied by Mr. THOMAS BROWN.

The hotel, a weatherboard building, with brick chimneys and shingled roof, contains verandah, passage, bar, bar-parlour, and sitting room, eight bedrooms, and pantry. The kitchen, a detached building, built of wood, and shingled roof. Also, stabling for 6 horses.

The property is in good order throughout, is in an excellent position, and for the past seven years has been in the occupation of the present tenant.

It is now in the market for BONA FIDE SALE, and is well worth the attention of those looking out for a good investment.

DARLING DOWNS DISTRICT.

That well-known first-class pastoral property, the CHINCHILLA and WONGONGRA RUNS, in the above favourite district, and capable of DEPASTURING from 60,000 to 70,000 SHEEP, situate on the Condamine River, with extensive frontage to both banks, and distant only

165 MILES FROM IPSWICH,
together with
27,136 SHEEP and 5000 CATTLE

Terms:—One-third cash, residue at 12 and 24 months by approved bills, with bank discount added equal to cash, secured on the stock and stations.

MORT and CO. have been instructed by the proprietors, in consequence of the intended departure for England of the resident partner, to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock on TUESDAY, 18th April,

That really valuable pastoral property, the CHINCHILLA and WONGONGRA RUNS, in the district of Darling Downs.

The CHINCHILLA RUN has a frontage of twenty-five miles to both banks of the Condamine River, and is also watered by Charley's Creek, the Branch, Rocky, the Cogan, and several other permanent creeks, as well as by Bligh's Lagoon, and various other lagoons and waterholes, yielding a most abundant supply of water in all parts of the run, and in all seasons.

The country is of the most FATTENING DESCRIPTION, consisting chiefly of open box and ironbark forest, interspersed with plains, and abounding in MYALL AND SALT BUSH.

THE IMPROVEMENTS ON CHINCHILLA are a dwelling-house of six rooms, with front and back verandahs and shingled roof, detached kitchen, &c., a large pleasure garden fenced in with wire, and an excellent kitchen garden.

A commodious store, overseer's cottage, blacksmith's forge, stone meat house, and several men's huts; a woolshed capable of accommodating 14 shearers, with wool room attached.

An extensive grazing paddock of about 2000 acres, with a three-rail fence, well watered.

A rich useful paddock for daily station purposes.

A cultivation paddock, and a herding paddock.

A large stock-yard, horse, milking and killing yards, all substantial and in excellent working order. Also, 4 good stock-yards on different portions of the run for facilitating the collection of cattle.

THE WONGONGRA RUN adjoins Chinchilla, the overseer's station upon it being 36 miles from the head station at Chinchilla.

The country is chiefly of open box and ironbark forest, and is all sound first-class sheep country. It is watered by the Wongongra, the Dogwood and other leading creeks, and also by several large permanent lagoons.

THE IMPROVEMENTS are an overseer's cottage of 4 rooms, a store and men's huts, drafting and sheep yards and stock yard, with an extensive grazing paddock well watered.

The outstation huts and yards are all in good order; there are hurdles on both stations, sufficient for lambing and other purposes, the greater part of them being nearly new.

The improvements on both stations are all complete, suitably adapted for the easy and economical working of them.

With the Chinchilla and Wongongra Runs will be sold the following stock:—

2100,	more or less, ewes, 1 and 2 years old
2786,	more or less, ewes, 3 years old
2990,	more or less, ewes, 4 years old
3323,	more or less, ewes, 5 and 6 years old
1068,	more or less, wethers, 1 and 2 years old
3217,	more or less, wethers, 3 years old
3081,	more or less, wethers, 4 years old
1247,	more or less, wethers, 5 years old
2544,	more or less, wethers, 6 years old
1500,	more or less, weaners, mixed sexes
280,	more or less, rams
27,136,	more or less, sheep.

Also,
5000 CATTLE, more or less, never having known disease.

*** Stores, implements, improvements, four first-class bullock teams, with drays and gear complete, and about 50 working and 20 unbroken horses, &c., to be taken at a valuation.

☞ There are now so few good squatting properties offering, and opportunities of securing such have of late become so rare, that capitalists in search of investments of this class ought not to lose sight of the present chance of securing a really valuable property; the speedy approach of the railway to Dalby, only 50 miles from the head station, will increase its value very considerably, thus allowing the wool to be put on board the vessel for London within a week after being shorn.

MORT and CO. would particularly direct attention to the VAST EXTENT of FIRST-CLASS FATTENING COUNTRY, abundantly watered, and therefore all available, and scarcely more than half stocked; its proximity to water carriage, and the great economy in management secured by the runs adjoining. Aware, however, that purchasers seldom entertain so large a speculation without first well informing themselves of the fullest particulars, and knowing that these cannot be brought within the limits of an advertisement, they invite an inspection of these runs and stock, for which there is ample time prior to the sale.

The proprietor, on the station, will give every assistance to enable intending purchasers to do so.

BISHOPTHORPE—THE GLEBE.

99 YEARS' LEASES.

ALLOTMENTS FRONTING MAIN GLEBE ROAD
ALLOTMENTS FRONTING ST. JOHN'S ROAD
ALLOTMENTS FRONTING DERWENT-STREET and ARUNDEL-TERRACE.

MORT and CO. have received instructions to sell by public auction, at the Rooms, Pitt-street, on WEDNESDAY, 19th April, at 11 o'clock,

Some of the remaining unsold portions of THE BISHOPTHORPE ESTATE, the Glebe, comprising

Allotments fronting the Main Glebe Road
Allotments fronting St. John's Road
Allotments fronting Derwent-street and Arundel-terrace.

☞ The rapidity with which the whole of the allotments already leased have been built upon clearly shows the great value of property in this locality, and also that the system of 99 years' leases, and the great advantages arising therefrom are being better understood and acted upon. The tenure is almost equal to a freehold, while it enables the purchaser, at a small annual rent, to secure the land, and expend his capital upon improvements, which will at once yield him A PROFITABLE RETURN FOR HIS MONEY.

Men of limited capital, or small means, would do well to consider the very great inducements which a lease for so long a period presents to them in particular. With nearly all the advantages of a freehold, they are enabled to acquire A REALLY VALUABLE PROPERTY, by payment of a trifling yearly rental.

The allotments have all 40 feet frontages, by depths of from 120 feet to 145 feet, with back entrances to every lot. The streets in this neighbourhood are now being made, and the main Glebe Road is EQUAL TO ANY STREET IN SYDNEY, while the city is rapidly extending in this direction, so that property in this locality cannot fail to increase in value every year.

LARGE PLAN on view at the Rooms, Pitt-street, where every information can be obtained.

POSITIVE SALE.

LOT 1.—THE LIGHTHOUSE HOTEL, situated at the South Head

LOT 2.—BROOK LODGE FARM, WINDSOR, containing 40 acres, and situate on Eastern Creek.

Title, unquestionable—Terms at sale.

MORT and CO. have received instructions to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock, on WEDNESDAY, 3rd May,

The following valuable freehold properties:—

LOT 1.—That well-known favourite hostelry the LIGHTHOUSE HOTEL, now licensed to Mr. Leftwich, and in full trade.

This property, situate at the South Head, is well known, and as the sale is bona fide, it is only necessary to invite inspection.

No. 2.—BROOK LODGE FARM, WINDSOR,—a beautifully situated farm and homestead, containing 40 acres on the Eastern Creek, about 2 MILES from WINDSOR, and close to the MULGRAVE RAILWAY STATION.

The land is enclosed and divided into five paddocks, about 30 acres are clear and 10 acres in crop. The residue is a grass paddock lightly timbered. The other improvements comprise a cottage of five apartments, detached kitchen, servants' room and store, barn, stable, gig-house, dairy, stockyard, orchard, &c.

☞ The attention of those seeking a country homestead in a delightful locality, is directed to this sale, and an inspection of the property is requested.

VETERAN GRANTS, BOTANY SWAMP.
8 CHOICE MARKET GARDENS.
Each from 4 to 13 Acres.

Title unquestionable. Terms at sale.

MORT and CO. have received instructions to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock, on WEDNESDAY, 3rd May,

EIGHT CHOICE MARKET GARDENS, six of which contain from 4 to 5 acres each, the remaining two from 13½ acres each.

The farms for sale adjoin the well-known properties of Messrs. Prince and Ogg, Mr. Howell, and Mr. Stephens, and are really CHOICE MARKET GARDENS.

*** Attention is directed to the sale of these valuable farms. It is but seldom that an opportunity is offered of securing such, and any person on the look out for land so admirably adapted for market gardens should not lose sight of the present sale.

Plans on view at the Rooms, where the fullest information may be obtained.

PORT CURTIS DISTRICT, QUEENSLAND.

That well-known station THORNHILL, distant about EIGHTY MILES FROM GLADSTONE, consisting of two blocks of country, CASSILIS and ROONEY, situate on Baffle Creek, and adjoining the runs of Messrs. FAMILY RESIDENCE.

TITLE—the residue of Lease of 99 years, Point Piper.
Terms at sale.

MORT and CO. have received instructions to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock, on WEDNESDAY, 19th April,

The residue of 99 years' lease, from 1st January, 1857, of all that BLOCK OF LAND situate in Ocean-street, and containing an area of nearly half an acre, having a frontage of 120 feet to Ocean-street, by a depth of 170 feet, upon which is erected a most comfortable and convenient

COTTAGE FAMILY RESIDENCE,

built of brick, on stone foundation, with shingled roof, containing a verandah, hall, dining-room, drawing-room, opening by folding doors into back drawing-room, and library, and three large bedrooms, and a bath-room. Kitchen, store-room, and servant's room, connected with the house by a covered passage. The yard immediately adjoining is paved, and in it there is a convenient wash-house, fitted with copper, &c. Also, brick-built coach-house and one-stalled stable, carefully paved, over which is a commodious loft.

The house is supplied with an abundance of excellent water from a tank, cut in the solid rock.

☞ The grounds are enclosed with most substantial fencing.

*** This property is situated in the best part of Ocean-street, and adjoins the residence of Mr. Ostley, and is opposite to Tudor Villa, and close to Tara, the property of Mr. German. It is in most complete order, no expense having been spared to render it a thoroughly comfortable family residence.

Particular attention is directed to the sale as affording an opportunity to any one on the look out for a first-class suburban residence, replete with every convenience. It is worth attention that the house has been so built that to any one desiring to erect another house, ample room has been left for so doing.

FOR POSITIVE SALE.

LEICHHARDT DISTRICT, QUEENSLAND.
